

Join the CB Board -- Make a Difference

Make a difference

This is a reminder that applications for positions on the Board of Directors of The Children's Bridge must be received by **Monday, October 13, 2008**.

This is an exciting time to join!

We expect an interesting, rewarding and fulfilling year as we adapt to all of the changes that are evident in the field of international adoption. The Board and the staff are proud of the diverse range of programs that have developed over the last few years and we believe that this is the time where we can really distinguish ourselves based on all of the background work that we have done in getting these programs in place.

As with all things worth doing, this will require a true commitment on the part of applicants to make a difference -- meaning **real work**.

We are looking for people who have some of the following:

- an interest in developing and adapting a strategic vision for CB in the coming years
- a willingness to learn about board governance
- an understanding of the challenges faced by not-for-profit service agencies
- practical skills in the areas of social work, adoption consulting, management, finance/accounting, communications or marketing
- a remarkable work ethic
- time to devote to making a real difference.

We are looking for doers, not dreamers.

If you fit into this group, click here;
